## Knowledge, Skill, and Innovation

Selling Precision is staffed with knowledgeable, qualified, and highly skilled personnel. Our designers utilize the most current CAD/CAM computer software on the market today including SolidWorks, MD Tools, and Mastercam. Our facility is computer-controlled and capable of producing prototypes to production quantities and complete assemblies, as well as alternative solutions for your needs. With a combination of craftsmanship, technology, and pride we create unsurpassed finished products. Our skilled team possesses a full understanding and comprehension of hydraulics, coupled with vast expertise in circuits and valve knowledge. The combination of knowledge and experience assures a quality product that will

# Selling Precision

It's not only our name, it's also our reputation and it describes exactly what we do! We are a manufacturer of custom and standard hydraulic manifolds or HIC (hydraulic integrated circuits) and much more. We transform a wide range of materials from aluminum to stainless steel into quality finished products on time, and at very competitive prices. From the simplest of standard bar manifolds to the most complex custom integrated circuits we will meet or exceed your expectations!

Selling Precision has been a family owned business since 1971 and has steadily grown over the years. Viewed as an industry leader by our worldwide customer base, we have established a proven track record utilizing our unparalleled knowledge base. For many years we have been pioneers in the hydraulic industry while providing our services to both OEMs and distributors. Our achievements include the highest quality design and manufacturing to accurate tolerances and strict finishes, all with a great attention to detail. We take great pride in our work and it shows in our finished products.

*“Selling Precision’s innovation and design combined with their engineering capabilities provide solutions to today’s manufacturing problems.”*

Customer for over 12 years, Purchasing Manager

*“I have been conducting business with Selling Precision for well over twenty years, and they have not run out of unique ideas to solve problems for our customers.”*

Customer for over 20 years, Vice-President

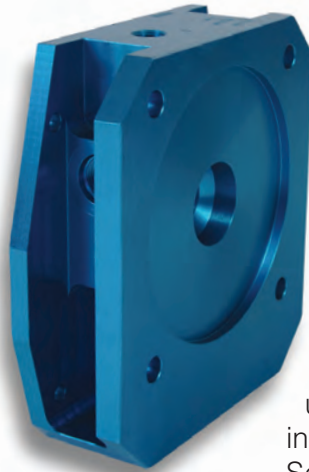

provide optimum performance, reliability, and cost savings. Our design staff is highly skilled with years of experience in hydraulic circuitry and has developed creative and innovative solutions. We provide our customers with proprietary designs and superior products, specifically for their unique applications.

Selling Precision utilizes an extensive array of CNC machines. Additionally, we have over 500 different cartridge valve porting tools on hand in order to obtain high-quality results with the most flexibility. Our team combines multiple capabilities and disciplines to assure our machining is exact and precise. Our multi-step quality control procedures coupled with our design software insures that no product leaves our facility before it is ready for use in the field.

# FROM CONCEPT TO COMPLETION

## Customer Satisfaction is Key

Selling Precision strives to attain 100% customer satisfaction and works hard to maintain our loyal customer base, one job at a time. We offer personalized, knowledgeable, and superior service, providing prompt quotations and fast turnaround of finished products. We have the greatest respect for our diverse and loyal customers and are dedicated and committed to them. In return, they have come to trust and rely on our winning team time after time.

Selling Precision also has a deep understanding of our customer's needs. We pay close attention to details in order to obtain a full understanding of our customer's applications and expectations. We involve our customers in all stages of their projects. Their involvement from design through production insures total satisfaction with the final design and ultimately the finished product. Our knowledge of hydraulics and its requirements allow us to adapt and perform in rapid and ever-changing industries such as the industrial and mobile markets. Selling Precision is dedicated to provide creative, innovative, and cost effective manifolds and assemblies for real-world challenges today and for many years to come.

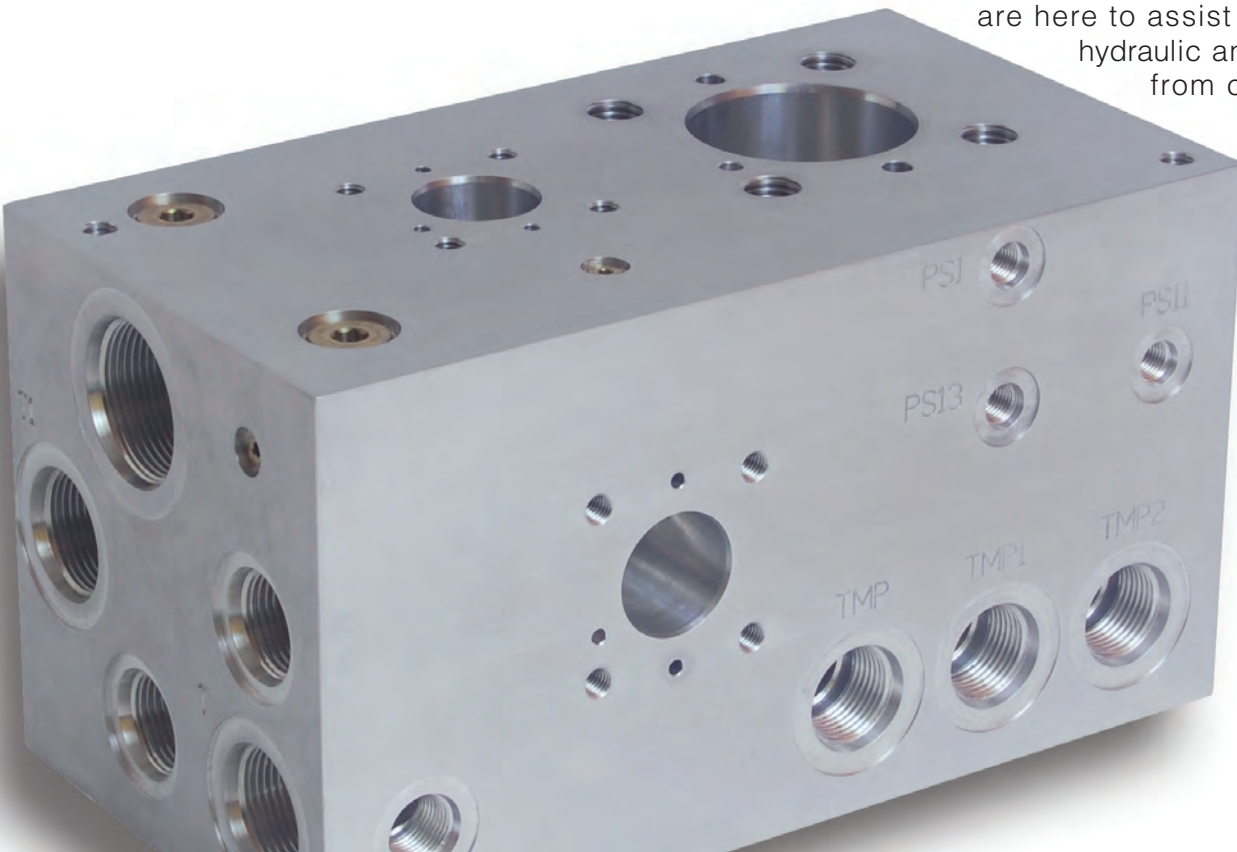

*“When I find a company that offers high quality products and service at fair market prices I will stay with them. I have been doing business with Selling Precision for more than ten years and I plan to continue!”*

Customer for over 10 years, President

## Partner with Selling Precision

You will be hard-pressed to find a better business partner other than Selling Precision. Our knowledge, experience, and dedication to customer satisfaction combined with our honesty, integrity, and trust are unrivaled. We are also committed to our core values of fair business practices; standards and principles that follow a business model that has been intact

from our humble beginning in 1971. We are here to assist you with all your hydraulic and manifold needs from concept to completion, time and time again. Allow Selling Precision to become your business partner today so we can start to develop the right solutions for you.
